

## Embroidery Project

# Frosty Frolics Table Runner

Created by Linda Wenturine

*This table runner is covered with embroidery designs that will catch everyone's eye come holiday time. Filled with jolly designs, your guests will find that each design is unique. These whimsical designs are sure to bring a smile to the viewer, setting a festive mood!*

## Supplies

- BERNINA Embroidery Machine
- OESD Frosty Frolics Crafter's Collection #6
- Blank cotton table runner with divided sections
- Fabric dye in desired color
- Organ Titanium Embroidery needle, size 80/12
- Isacord Embroidery Thread
- OESD AquaTear LightWeight Tear-Away
- 505 Temporary Spray Adhesive

## Embroider the Table Runner Sections

- ◆ Dye the table runner according to the manufacturer's instructions.
- ◆ Cut a piece of AquaTear stabilizer and affix it to the back of one section with 505 spray adhesive.
- ◆ Hoop the fabric/stabilizer sandwich and embroider a design of your choice in the section.
- ◆ Repeat, stitching a different design in each section of the table runner.

## Prepare the Border Design

- ◆ Print a template for border design #BC00643.
- ◆ Position the template on the mitered end of the table runner so that the tip of the embroidery design starts right at the center near the point of the tip so that it will form a “V” when mirror imaged.
- ◆ Mark the center of the design placement.
- ◆ Hoop a piece of stabilizer. Mark horizontal and vertical center lines directly on the stabilizer.
- ◆ Spray the hooped stabilizer with 505 adhesive and affix the mitered end of the table runner, aligning the center lines.

- ◆ Embroider the border design.
- ◆ Mirror image the design and repeat the above procedure to embroider the second side of the corner, matching the ends of the two designs at the point of the miter.

Instructions for the Joy Placemat and Napkin shown below can be found at [www.berninausa.com](http://www.berninausa.com).
